SHS Girls Soccer Rolls to 9-0 on the Season

The Stevens Lady Cardinals Soccer team traveled to Windsor Tuesday and won 6-0. Goals: Sydney 29:42 from Angelina; Angelina from Sydney 20:41. Second Half: Tanner unassisted 35:19; Stella from Tanner 26:29; Ellee from Hannah 19:45; Hannah from Tori 00:40.

On Thursday, the Cardinals Girls Soccer team traveled to Hopkinton and came away with a 2-1 victory.

Stevens scored first when Sydney Miller, off a pass from Tori Dalke, shot from outside the 18 yard box and put it over the keeper and just under the crossbar to make it 1-0.

Going into the 2nd half, under wet conditions, Stevens fought off wave after wave of Hopkinton attacks and was able to find the back of the net at the 36th minute when Tanner Brown, off a pass from Molly Derosier, shot from the top of the 18 yard box to make it 2-0. Hopkinton came down and scored within the 38th minute to make it 2-1.

The Red Birds team hosted Fall Mountain for Homecoming Saturday and scored another victory, 5-0. Tanner Brown scored within the 18th minute of the first half off a pass from Tori Dalke to make it 1-0. Sydney Miller then scored in the 11th minute to make it 2-0. A few minutes before halftime, Sydney Miller found the back of the net once again off a pass from Elle Grenier to go into the half 3-0. 2nd half goals were both scored by Elle Grenier. One off an assist from Stella Lavertue and the other off an assist from Sydney Miller.

Stevens is now 9-0 and will head to White Mountains on the 30th.

Stevens Field Hockey Homecoming Week Recap

The Stevens Field Hockey team is 5-2 on the season, securing two wins this past week.

Cardinal beat Littleton on the road on Tuesday, Sept. 24th, 3-0. First half—Goals scored by Sophomore Bri Frisbee (unassisted) and Junior Abigail Faro, assisted by Senior Rylee Little during a penalty corner.

The Cardinals scored their third goal half way through the second half with a goal scored by Bri Frisbee, assisted by Junior Zoey Foote. Senior Goalie Nicole Salls got her 4th shutout on the season.

“[This was] a great team effort,” said Coach Patty Deschaine.

The Cardinals Field Hockey team then played their homecoming game Saturday night against rival Newport under the lights. “[It was a] great crowd from both teams that came out to watch the game,” said Deschaine.

The Newport Tigers put one on the board in the first half but that is all they would get on the night. Sophomore Bri Frisbee scored for the Cardinals, assisted by Abigail Faro. Tied 1-1 going into the second half, the Cardinals were ready to play hard and it showed. Bri Frisbee scored her second goal of the night unassisted. The Cardinals sealed the game with 2:25 left in the with a goal from Abigail Faro, assisted by Junior Abbie Thurber and Bri Frisbee, ensuring the win, 3-1.

“The Cardinal defense was solid throughout the game,” said Deschaine. “Another great team effort.”

Cardinals Boys Soccer Wins Two of Three Games

After Monday's 1-0 loss to the Generals of John Stark Regional High School, the Stevens varsity boys soccer team regrouped and settled down to business.

Sure, they were getting a lot of experience, but they were understandingly downhearted about their season up to that point, 1 win and 5 consecutive losses. They were also tired of disappointing their many fans at Monadnock Park, including the ones who stood in the needle-like rain that pelted down the last four minutes of the John Stark match.

What a difference two days away made.

On Wednesday the Cardinals beat the Windsor Yellowjackets, 2-1. The next evening, they blanked the Blue Demons from Kennett, 1-0.

Their determination to turn the season around strengthened with intensive practice sessions under the watchful eyes of head coach Jason Stone. His never-failing encouraging words — coupled with a lot of forthright analyses — led to hard work, improved team play ... and those two wins that saw the first half of the season end with a 3W/5L tally.

Not a bad place to ramp up for the rest of the regular season.

Stone was both enthusiastic and incisive following the loss to John Stark. "That was a good battle, not the best, but you played well," he told his soaked team. "Now get dry, get warm and go home."

There was much more aggressive playing that evening than in previous games, he added, but the team couldn't sustain it. "We blasted the ball tonight. In the first half, we used a new formation that we'd practiced all week, but they didn't capitalize on it."

The key to playing better, said Stone, is "playing wide. Keep the ball down along the sidelines. A kick from the side is much harder for the goalie to stop. If you go straight down the middle, he's more likely to catch it."

"Win the ball!" is heard dozens of times at every game. Stone calls it out during play and repeats it during half-time huddles. He constantly turns around to players on the bench to drive home this basic tactic.

SHS Football Takes Win, Defeating Hilltoppers in Exciting Matchup

The Stevens football team took on a determined Somersworth Hilltopper team in a Friday night game on Homecoming weekend. When the final whistle blew the Cardinals had held on, in a wild finish, for a huge 21-18 victory!

Somersworth took the opening kickoff and marched right down the field for a touchdown with Christian Abkarian scoring from a yard out. Hunter Paradis blocked the extra point and it was quickly 6-0. The Hilltoppers would add to their lead on their first possession of the second quarter as Abkarian would score again on a 15 yard run. He was stopped by Quentin Bicknell on the conversion run attempt and the Hilltoppers were up 12-0.

Stevens would put together a nice drive late in the half with Keaghan McAllister capping the drive on a 6 yard touchdown run with just 57 seconds remaining in the first half. Clayton Wadsworth would calmly boot the extra point through the uprights to make it 12-7 at the half.

The second half would be a seesaw affair leading to a heart stopping finish. Trailing 12-7, the Cardinals needed a spark and got it in the form of a 5 yard touchdown run by McAllister in the 3rd quarter. Wadsworth, whose extra points would end up being the difference in the game, booted his 2nd of the game to give the

Cardinals a 14-12 lead.

It would stay that way until a wild 4th quarter that would see the two teams score a pair of touchdowns in the final 4 minutes and 24 seconds, along with the game's final play ending on a turnover inches away from a possible game winning touchdown.

With the Hilltoppers deep in Stevens territory, Keaghan McAllister came up with a huge interception inside the Stevens 10 yard line to give the Cardinals the ball back. Stevens would drive into Somersworth territory and appeared to be on their way to closing out the game, driving all the way to the Somersworth 35 yard line. A fumble recovery would give Somersworth the ball back. The Hilltoppers would drive 65 yards and take the lead on a 1 yard touchdown run by Matt Mahadeo. Phillip Mason would stuff the two point conversion, making Somersworth 0 for 3 on their conversion attempts, and that would come back to haunt them. With 4:24 remaining in the game, it was Somersworth on top 18-14.

Stevens would get one more chance, and taking over at their own 40 after the kickoff, and the Cardinals would drive the 60 yards to take the lead. Owen Taylor connected on 3 consecutive passes to set Stevens up on the

Win, from B2

Hilltoppers 20 yard line. McAllister would cover those 20 yards in 2 plays, scoring on a 4 yard run with 1:15 remaining in the contest. Wadsworth booted extra point # 3 to make it 21-18 in favor of the Cardinals.

Somersworth got a huge 35 yard return on the ensuing kickoff, all the way to the Stevens 39 yard line. Mahadeo single handedly kept Somersworth in the game, scrambling back and forth, on a 4th down play to complete a pass for a first down, before scrambling to the 4 yard line on the next play, and getting out of bounds with 1.4 seconds remaining, as the fans were on the edge of their seat. On the game's final play, Abkarian headed up the middle and bullied his way inside the one before Lucas Mudge would knock the ball out of his grasp, inches from the goal line, as he reached the ball out trying to score, and Mudge would recover the ball to give Stevens a huge Division III victory.

McAllister would rush for 123 yards and 3 touchdowns on the night. Owen Taylor completed 10 of his 15 passes on the evening. Wadsworth was perfect on the evening with his three extra point boots, and those 3 points would end up being the difference in the game. Matt Jones had a huge game on both sides of the ball for Stevens. The Cardinals will take to the road on Saturday night as they travel to North Sutton to take on the Kearsarge Cougars. Game time is 7PM.

Inspiration

Synchrony

By Priscilla Hull

In kinesiology, or the study of movement of the body, I learned that the movements occur with precision and purpose. Movement in synchrony is like a symphony played by a group of musicians who have the same score, coordinating sound and rhythm resulting in something pleasing to the ear. It takes work and practice to coordinate 60 or 80 people together to present a symphony that sounds like a well planned/composed piece. On a smaller scale and in the same venue, music, a rock band also takes sound and rhythm and produces a complexity of sound which, the practiced ear interprets as music. Two ends of the spectrum in one venue using the same tools with two different outcomes.

Back to kinesiology. Watch a toddler learning to walk. They are called toddlers for a reason, those small people of 10 to 24 months or so. They do, indeed toddle around, always on the brink of falling, but they bounce back and toddle along! Years go by! They start taking gymnastic lessons before they've really coordinated their movements and in a couple of years they're doing simple somersaults. In another couple of years, they might be doing back flips. Six or eight years go by and they're running along a balance beam doing flips, swinging on parallel bars and making all sorts of fancy movements of which we say, "I can't do that!" However, most of us have the same bone structure, musculature, nervous system so potentially we could do that. My mother had 12 grandchildren and she said that she would give anyone \$10 (good money back then) if they could walk five steps on their hands! One did it! They all could have.

Movement in synchrony, however, is not only for human motion. Synchronized movement applies to a group of horses as in the Lipizzan Horses, that are trained to move together in incredible patterns. Also a pod of porpoise who swim and jump apparently as one mind. A whisper of doves or sparrows which is a flock of birds who take to the air and fly in circles. Even a flock of geese in that perfect V.

In life, we seek synchrony in our relationships. We want to be in the right place at the right time so that we can be depended upon. The art of being in "synch" with our loved ones, our work companions and all those around us is not a passive action. It takes thought, care and practice. What helps us be in synch with others? Well, our awareness. In order to develop this, we have to be aware of others. That means reading the mood. It means being alert to how others are. What might be making someone feel good. What might be making someone feel bad. It takes time to discover these moods. It means to pay attention to their reactions to the world around them, to you. It means looking for signs and hearing the voices of others. It means looking beyond the self centered inward sight of a small child, to the outward awareness of an adult.

When we attempt to see and feel what others are seeing and feeling, we find that we can be in synch with others, the world, the universe. We will work together with others, as the old song says, "in perfect harmony". It makes life easier for all. It makes the world better for all. Acknowledge differences and accept them. Work together, not separately. Live in peace, not conflict for a healthier, happier life.

When I was a child, I talked like a child, I thought like a child, I reasoned like a child. But when I became an adult, I set aside childish ways.

Trails for People and Wildlife Now Available Online

CONCORD, NH – An all-new publication, authored by the New Hampshire Fish and Game Department's Rachel Stevens and Jim Oehler, entitled Trails for People and Wildlife is a guide for planning recreational trails that enables people to enjoy nature while also allowing wildlife to thrive. Katie Callahan, also of the New Hampshire Fish and Game Department, provided geographic information system (GIS) modeling in support of the publication.

Intended for landowners, conservation groups, and natural resource professionals, the objective of Trails for People and Wildlife is to help readers facilitate the placement of thoughtfully located networks of well-maintained trails that help people get outside while minimizing wildlife disturbance. While hiking, biking, and bird watching are just some of the ways people engage with their environment, these seemingly low-key activities can have a negative impact on wildlife by reducing their abundance, reproductive success, or even survival.

Trails for People and Wildlife can be downloaded and used by both private landowners and professionals to select locations for new trails and to determine where it is best to maintain, reroute, or decommission existing trails to optimize human experience and minimize wildlife impact.
